ABOUT THE BERNARD VAN LEER FOUNDATION
The Bernard van Leer Foundation is an independent Dutch organisation working worldwide to ensure that all babies and toddlers have a good start in life. We inspire and inform large-scale action that improves the health and wellbeing of young children – especially the most vulnerable – and the people who care for them.

THE POSITION
At the Foundation, we work to ensure the voices of babies, toddlers and the people who care for them are heard – and through our communication efforts we aim to tell the world why this matters.

To support our communications strategy, we are looking for a temporary junior communications consultant who will work closely with the Communications and Knowledge Uptake officer, supporting the implementation of key projects around social media storytelling, transitioning to a new corporate website and developing data-driven communication monitoring and evaluation.

We are looking for someone who wants to be a voice for change for young children. S/he should be creative and detailed-oriented and equally comfortable using words and numbers for innovative storytelling techniques. The consultancy can either be full-time or part-time (3-5 days a week), depending on the experience and preference of the chosen candidate.

PRINCIPAL RESPONSIBILITIES AND TASKS
The Communications Assistant will be supporting the Knowledge Uptake and Communications Officer with the following:

- Crafting engaging and thought-provoking content for online platforms incl. social media, website and newsletters
• Work with translators to ensure content and communication material is multi-lingual
• Monitoring and analysing social media platforms, and providing feedback to ensure projects and processes can be improved
• Supporting the collection and management of data relevant for communications dashboards
• Supporting the Knowledge Uptake and Communications Officer with tasks related to ongoing communications projects, particularly the launch of the new Foundation website
• Contributing to creative communications project design and implementation
• Supporting the team in updating and managing the Foundation’s digital photo library (PhotoShelter)
• Any other related tasks assigned as appropriate.
